Dear Ed:

The enclosed leaflets were printed by Don Heath for the ANA conventions in 1938 and 1962.

All of the 1938 material was printed on his father's press, which you have.

Of the 1962 items, all but one were printed on the old press. The other (note that it doesn't say "Printed on the Original Press" on the front cover) was run off on Don's own, larger letterpress which he had in his basement in Grouse Pointe, Michigan.

The 1962 "Original Press" leaflets are by far the rarest. I think he made 200 of them. The press run on the second press was probably over 2,000.

They're for your archives, compliments of Mr. & Mrs. Dan Heath. No acknowledgement necessary.

Cordially,

Charles Hoskins
